GYS DBT 410 Battery Tester

Battery Tester / Accutester | GYS | GYS083233

This professional 12V tester provides precise diagnostic data for various battery types, including AGM, GEL, and EFB. It features a clear 2,4-inch color display and integrated temperature compensation for accurate results. The device ensures safe operation through polarity reversal protection.

Features

- Supports a wide range of battery technologies including AGM, GEL, and EFB.
- Clear 2,4-inch color display ensures easy reading of diagnostic data.
- Integrated temperature compensation improves measurement accuracy.

Technical Specifications

Test Capabilities	
Battery Testing	**? Yes**
Starter Testing	**? Yes**
Alternator Testing	**? Yes**

Voltage Support	
6V Support	**? Yes**
12V Support	**? Yes**

Battery Type Support	
Flooded Lead-Acid	**? Yes**
AGM	**? Yes**
GEL	**? Yes**
EFB	**? Yes**

Regulatory Compliance

Standards: EN 61010-1, EN 61326-1
Regulatory: CE
