EXIDE 12V 82Ah Start-Stop Battery

Battery / Accu | EXIDE | EK820

Fleet operations in harsh winters require starting power exceeding 800A for reliable engine ignition in sub-zero temperatures. This AGM battery's advanced design sustains frequent engine restarts and auxiliary power demands for continuous vehicle availability.

Features

- 800A cold cranking power ensures reliable starting even in sub-zero temperatures, keeping your vehicle operational during harsh winters.
- Engineered for Start-Stop vehicle systems, providing the robust power cycles needed for frequent engine restarts and auxiliary electronics.
- AGM (Absorbent Glass Mat) technology offers superior vibration resistance and maintenance-free operation, enhancing durability and reducing service needs.
- Sealed, spill-proof construction ensures safe installation and prevents leakage, offering flexible placement options within the vehicle.
