EXIDE Orbital AGM 12V 50Ah Start-Stop Battery

Battery / Accu | EXIDE | EP450

Extreme temperature engine starting relies on 750A cold cranking power; the EXIDE EP450 AGM orbital battery ensures sustained ignition year-round. Engineered for start-stop systems and advanced electronics, it provides consistent power for demanding applications with superior vibration resistance.

Features

- Ensures reliable engine starting even in extreme cold with 750A cold cranking power, keeping your vehicle operational year-round.
- Engineered specifically for vehicles with start-stop systems and advanced electronics, providing consistent power for demanding applications.
- Utilizes advanced AGM technology for a completely maintenance-free experience and superior vibration resistance, ensuring longevity and safety.
- Offers flexible installation options due to its sealed design, preventing leaks and gas emissions, ideal for confined engine compartments.
