EXIDE AGM 12V 100Ah Starter Battery

Battery / Accu | EXIDE | EM960

800A cold-cranking power ensures reliable marine engine starts, even in challenging conditions. This AGM battery is engineered for marine starter applications, withstanding vessel vibrations and environmental stresses for enhanced operational continuity.

Features

- With 800A cold-cranking power, the EM960 ensures your marine engine starts reliably, even in colder waters or after periods of inactivity.
- Engineered specifically for marine starter applications, this battery is built to withstand the vibrations and environmental stresses common on vessels.
- Utilizing advanced AGM technology, the EM960 provides a maintenance-free experience and enhanced vibration resistance compared to traditional flooded batteries.
- Designed for marine environments, its robust build and dependable performance offer critical starting power and support for onboard electronics.
