RS316R Red Terminal Cover

Accessory | MATERIAL | PB.50047

Protect fixed/mobile DC systems from shorts & contamination where re-installation is impractical. Its durable build ensures continuity by safeguarding battery terminals in automotive, marine, and caravan applications.

Features

- Ensures safe battery operation by preventing accidental short circuits and contamination
- Engineered for reliable performance across automotive, marine, caravan, and camper applications
- Durable construction offers protection against dust and environmental factors
- Bright red color enhances terminal visibility for safe and efficient maintenance

WEIGHT

0,1 kg
