

VARTA Dynamic AGM 12V 40Ah Start-Stop Battery

Battery / Accu | VARTA | A10

With 420A Cold Cranking Amps, this advanced AGM battery ensures reliable starts in extreme temperatures. Engineered for start-stop and regenerative braking, it handles frequent restarts and conserves energy.

Features

- With 420A of Cold Cranking Amps, the VARTA A10 ensures powerful and reliable engine starts, even in extreme temperatures, keeping your vehicle operational.
- Specifically designed for vehicles with start-stop technology and regenerative braking, providing the necessary power cycles to manage frequent engine restarts and conserve energy.
- Utilizing advanced AGM technology, this battery offers superior vibration resistance and is completely maintenance-free for enhanced durability and reduced service needs.
- The sealed design and robust construction ensure safety and prevent leakage, making it suitable for installation in various vehicle orientations without compromising performance.
