

# COTEK 12V Smart Charger

Battery Charger / Acculader | COTEK | CX1215

Advanced multi-stage charging ensures constant 12V battery readiness for automotive/marine use, actively compensating for temperature to maintain optimal charge. This smart charger integrates with auxiliary power systems, extending battery life and ensuring operational continuity.

### Features

- Delivers optimal battery health through intelligent charging, ensuring your 12V systems are always ready for demanding use and extending battery lifespan.
- Engineered for reliable performance across caravans, automotive, campers, heavy-duty, and marine applications, guaranteeing power in diverse operational environments.
- Features advanced charging technology that actively monitors and adjusts output, preventing overcharging and maximizing energy efficiency for your equipment.
- Compact and robust design with dimensions of 183 x 72 x 243 mm and a weight of 1.6kg, facilitating easy installation without compromising charging power.
