

IEB 48V 150A Industrial Charger

Battery Charger / Acculader | IEB | D400G48-150.B30-FPD

Multi-shift traction cycles demand rapid power restoration — this 48V charger delivers 150A to rapidly recharge batteries, minimizing productivity loss. Its industrial-grade construction ensures long-term reliability in demanding operational environments.

Features

- Delivers 150A of charging current to rapidly restore power, ensuring your equipment returns to operation faster and minimizing productivity loss.
- Specifically engineered for industrial settings, supporting critical applications like forklift fleets and AGV systems that require reliable, high-volume power.
- Features robust construction designed to withstand harsh industrial environments and continuous operation, ensuring long-term reliability and performance.
- Optimized 48V system voltage ensures efficient energy transfer and broad compatibility with heavy-duty industrial battery systems.

NOMINAL OUTPUT VOLTAGE	MAX OUTPUT CURRENT	WEIGHT
48 V	150 A	45 kg

Technical Specifications

Output		Connectivity & Protection	
Nominal Output Voltage	48 V	Reverse Polarity Protection	? Yes
Max Output Current	150 A	Short Circuit Protection	? Yes
Physical Specifications			
Weight	45 kg		

Regulatory Compliance

CE Standards: EN 60335-2-29, EN 55014, EN 61000-3-2
Regulatory: CE

Product Identification

Item Code: **D400G48-150.B30-FPD**
Model: **D400G48-150.B30-FPD**
