

## DEFA 460829 16A Plug Socket

Connector | DEFA | DEFA460829

Multi-shift auxiliary power demands stable current delivery up to 16A. This Schuko socket, featuring a miniplug interface, integrates easily into accessory systems for dependable appliance connection. It ensures connected equipment receives ample power safely and efficiently for continuous operation.

### Features

- Ensures secure and stable power delivery up to 250Vac and 16A, guaranteeing connected equipment receives ample power safely and efficiently.
- Engineered for integration into automotive accessory systems, auxiliary heating setups, and specialized electrical installations where reliable power distribution is essential.
- Utilizes the Schuko standard for broad appliance compatibility, coupled with a miniplug interface for straightforward installation and connection within accessory systems.
- Provides a robust connection point designed for secure and stable power delivery, enhancing system reliability in demanding environments.

## Technical Specifications

### Regulatory Compliance

Regulatory: CE
