

# IEB 12V 10A Industrial Charger

Battery Charger / Acculader | IEB | E230G12-10.B65-FP

10A charging current ensures efficient replenishment of 12V lead-acid batteries, minimizing downtime for industrial equipment. Engineered for industrial settings, it provides reliable power for logistics, manufacturing, and backup systems with IP21 protection.

### Features

- 10A charging current ensures efficient replenishment of 12V lead-acid batteries, minimizing downtime for industrial equipment.
- Engineered for industrial settings, providing reliable power for logistics, manufacturing, and backup systems.
- IP21 rated for protection against dripping water and solid ingress, ensuring safe operation in protected indoor environments.
- Specifically designed for PB (lead-acid) batteries, offering optimal charging profiles for this common industrial chemistry.
