

IEB 24V 30A Industrial Charger

Battery Charger / Acculader | IEB | E230G24-30.B50-FP

This 30A charger rapidly restores 24V batteries for industrial fleets, ensuring peak readiness and minimizing downtime. Its IP21 rating protects against dripping water, guaranteeing reliable performance in demanding environments like manufacturing floors and logistics hubs.

Features

- With a substantial 30A charging current, this charger rapidly and efficiently restores 24V PB batteries, minimizing equipment downtime and ensuring peak operational readiness for your fleet.
- Engineered for industrial environments, its IP21 rating offers protection against dripping water, making it a reliable charging solution for manufacturing floors, warehouses, and logistics hubs.
- Designed specifically for lead-acid (PB) batteries, this charger employs optimized charging algorithms to ensure maximum battery lifespan and performance, reducing long-term operational costs.

NOMINAL OUTPUT VOLTAGE	MAX OUTPUT CURRENT	WEIGHT
24 V	30 A	10 kg

Technical Specifications

Output		Charging Features	
Nominal Output Voltage	24 V	Supported Battery Types	Lead-acid
Max Output Current	30 A	Physical Specifications	
Connectivity & Protection		Weight	10 kg
Reverse Polarity Protection	? Yes	IP Rating	IP21
Short Circuit Protection	? Yes		

Regulatory Compliance

CE Standards: EN 60335-2-29, EN 55014, EN 61000-3-2
Regulatory: CE

Product Identification

Item Code: **E230G24-30.B50-FP**
Model: **E230G24-30.B50-FP**
