

# IEB 48V 6A Industrial Charger

Battery Charger / Acculader | IEB | E230G48-6.B65-FP

Built for industrial settings, this 48V 6A charger offers IP21 protection against dripping water. It's engineered for lead-acid batteries, ensuring consistent power for optimal health and extended service life.

### Features

- Delivers a consistent 6A charging current for optimal 48V lead-acid battery health and longevity.
- Engineered for industrial workshops, factories, and environments requiring protection against dripping water (IP21).
- Designed specifically for lead-acid (PB) battery chemistries, ensuring compatibility and efficient charging.
- IP21 rating provides essential protection against vertically falling water droplets, enhancing operational safety.

NOMINAL OUTPUT VOLTAGE	MAX OUTPUT CURRENT	WEIGHT
<b>48 V</b>	<b>6 A</b>	<b>6,2 kg</b>

## Technical Specifications

Output		Charging Features	
Nominal Output Voltage	<b>48 V</b>	Supported Battery Types	<b>Lead-acid</b>
Max Output Current	<b>6 A</b>	<b>Physical Specifications</b>	
Connectivity & Protection		Weight	<b>6,2 kg</b>
Reverse Polarity Protection	<b>? Yes</b>	IP Rating	<b>IP21</b>
Short Circuit Protection	<b>? Yes</b>		

### Regulatory Compliance

**CE** Standards: EN 60335-2-29, EN 55014, EN 61000-3-2  
 Regulatory: CE

### Product Identification

Item Code: **E230G48-6.B65-FP**  
 Model: **E230G48-6.B65-FP**
