

EXIDE 12V 50Ah Start-Stop Battery

Battery / Accu | EXIDE | EK508

800A cold cranking amps deliver immediate engine ignition and consistent performance for start-stop vehicles. Advanced AGM technology provides enhanced vibration resistance and extended service life for modern vehicle electronics.

Features

- Delivers reliable starting power with 800A charging current, ensuring immediate engine ignition and consistent performance for start-stop vehicles.
- Engineered for modern vehicles with start-stop functionality, providing the endurance needed for frequent engine restarts and powering auxiliary electronics.
- Utilizes advanced AGM technology for enhanced vibration resistance, leak-proof operation, and extended service life compared to conventional batteries.
- Compact dimensions (260x173x206 mm) and robust construction ensure secure fitment and long-term reliability in demanding automotive environments.
