

EXIDE 12V 65Ah Start-Stop Battery

Battery / Accu | EXIDE | EL652

EFB technology offers superior charge acceptance, enabling faster replenishment of energy reserves essential for frequent engine restarts and auxiliary power demands in modern vehicles. This enhanced cyclic durability ensures extended service life, maintaining critical vehicle functions under demanding conditions.

Features

- Delivers exceptional starting power with 650A cold-cranking capability, ensuring your vehicle starts reliably even in extreme temperatures.
- Specifically designed for vehicles featuring start-stop systems, regenerative braking, and high electrical demands.
- Employs EFB (Enhanced Flooded Battery) technology for superior cyclic durability and improved charge acceptance, outperforming standard flooded batteries.
- Features a robust construction and compact footprint (278x175x175 mm) for reliable integration and long-term performance in demanding automotive environments.

NOMINAL VOLTAGE	RATED CAPACITY (C20)	COLD CRANKING AMPS (EN)	WEIGHT	HOLD-DOWN TYPE
12 V	65 Ah	650 A	16,1 kg	B13

Technical Specifications

General Information		Electrical Specifications	
Technology	Start-Stop Battery	Nominal Voltage	12 V
Chemistry	Lead-Acid	Rated Capacity (C20)	65 Ah
Physical Specifications		Cold Cranking Amps (EN)	650 A
Length	278 mm	Layout	
Width	17 mm	Terminal Position	+R
Height	175 mm	Hold-Down Type	B13
Weight	16,1 kg		

Regulatory Compliance

CE Standards: EN 50342, EN 61427, EN 62133, IEC 62619, UN 38.3
 Regulatory: CE | Bebat | ADR

Product Identification

Item Code: **EL652**
 EAN/Barcode: **3661024036542**
