

# EXIDE 12V 62Ah Starter Battery

Battery / Accu | EXIDE | EN600

Marine engine starting requires 600A of cold-cranking power to ensure reliable ignition under all conditions. This battery delivers that critical starting force, minimizing downtime and maintaining operational readiness for vessels.

### Features

- With 600A of cold-cranking power, the EN600 ensures your marine engine starts reliably every time, minimizing downtime and ensuring operational readiness.
- Engineered specifically for the marine environment, this battery withstands vibration and harsh conditions, providing dependable starting power for yachts, fishing boats, and commercial vessels.
- Utilizing advanced lead-acid technology, the EN600 offers a balance of high cranking power and sufficient capacity for essential onboard electronics.
- Featuring a robust casing and secure terminal design, the EN600 is built for the rigors of marine use, offering protection against environmental factors.
