

FOREX 24V 3A Equalization Charger

Battery Charger / Acculader | FOREX | EQUA24

A precise 3A equalization charge maintains optimal battery health for 24V wheelchair and scooter systems, extending operational lifespan. This charger is specifically engineered for personal mobility devices, delivering controlled cell balancing for consistent power delivery.

Features

- Maintains optimal battery health for 24V wheelchair and scooter systems with a precise 3A equalization charge, extending operational lifespan.
- Specifically engineered for electric wheelchairs and scooters, ensuring reliable power for personal mobility devices.
- Delivers controlled equalization charging to balance battery cells, preventing performance degradation and ensuring consistent power delivery.
- Compact and durable design suitable for regular use, supporting the active lifestyle of mobility device users.
