

FOREX 24V Load Tester

Battery Tester / Accutester | FOREX | F24-25

Accurately assesses 24V battery health under simulated load conditions, ensuring reliable system operation. USB connectivity streamlines diagnostic workflows and maintenance records for automotive workshops and industrial equipment servicing.

Features

- Accurately assesses 24V battery health and performance under simulated load conditions, ensuring reliable system operation.
- Designed for automotive workshops, heavy-duty vehicle maintenance, and industrial equipment servicing where 24V power system integrity is critical.
- Features USB connectivity for efficient data logging and reporting, streamlining diagnostic workflows and maintenance records.
- Supports up to 200 cycles of testing, providing comprehensive performance evaluation for lead-acid batteries.

WEIGHT

2 kg

Technical Specifications

Test Capabilities		Battery Type Support	
Battery Testing	? Yes	Flooded Lead-Acid	? Yes
Voltage Support		AGM	? Yes
12V Support	? Yes	GEL	? Yes
		EFB	? Yes
Physical Specifications			
Weight			2 kg

Regulatory Compliance

Standards: EN 61010-1, EN 61326-1
Regulatory: CE

Product Identification

Item Code: **F24-25**
Manufacturer Code: **F24-25**
Model: **F24-25**
