

## POWERBOOZT 230V Insulation Protection Switch

Switch / Schakelaar | POWERBOOZT | IBW.230-25C

Caravan and motorhome electrical systems demand insulation protection that detects and interrupts ground faults, preventing shock hazards and fires. This 230Vac, 25A switch provides critical electrical safety with a dual-output architecture for comprehensive system coverage.

### Features

- Ensures electrical safety by detecting and interrupting insulation faults, preventing shocks and fires.
- Specifically engineered for the demanding conditions of caravan and motorhome electrical systems.
- Provides robust 25 Amp protection for 230Vac combi and grid power applications.
- Designed for reliable integration into vehicle electrical systems, offering enhanced safety.

## Technical Specifications

### Regulatory Compliance

Standards: IEC 60947  
Regulatory: CE

### Product Identification

Item Code: **IBW.230-25C**  
EAN/Barcode: **08720986210140**
