

LEOCH -BIKE 12V 8Ah Starter Battery

Battery / Accu | LEOCH | LB7-A

80 CCA ensures reliable engine starting in colder conditions, enabling consistent operational continuity for motorcycle applications. This lead-acid battery provides dependable power delivery, integrating directly into standard two-wheeled vehicle electrical systems.

Features

- Delivers 80 CCA (Cold Cranking Amps) for reliable engine starting, even in colder temperatures, ensuring your motorcycle starts without hesitation.
- Specifically designed for motorcycle applications, providing the precise power and form factor required for two-wheeled vehicle starting systems.
- Utilizes proven lead-acid technology for dependable and cost-effective energy storage, offering a robust solution for standard motorcycle power needs.
- Compact dimensions (137 × 76 × 134 mm) and a lightweight design (2.8kg) ensure straightforward fitment and integration into existing motorcycle battery trays.
