

# LEMANIA Charger Flash 12V 150A Fast

Battery Charger / Acculader | LEMANIA | LEM-F150

In demanding automotive workshops and fleet depots, 150A peak and charging current rapidly restores power to critical 12V batteries, minimising vehicle downtime. This high-amperage capability maximises operational readiness for essential heavy-duty service environments.

### Features

- 150A peak and charging current ensures rapid power restoration for critical 12V automotive and heavy-duty batteries.
- Engineered for the rigorous demands of automotive workshops, fleet maintenance depots, and heavy-duty service environments.
- Delivers high-amperage charging to minimize vehicle downtime and maximize operational readiness.
- Durable 9kg construction designed for resilience in demanding professional settings.
