

LEMANIA 24V Lithium Jump Starter

Jump Starter / Booster | LEMANIA | LEM-L7-ST-210

24V 2X 210Wh Lithium capacity delivers high-current output to reliably start marine engines, ensuring operational continuity. This advanced jump starter is engineered for marine resilience against moisture and vibration, providing consistent, rapid power delivery.

Features

- Delivers the high-current output required to reliably start 24V marine engines, minimizing downtime and ensuring operational continuity.
- Engineered specifically for the harsh conditions of marine applications, offering enhanced resilience against moisture and vibration.
- Utilizes advanced lithium technology for consistent and rapid power delivery, ensuring dependable performance even in challenging environments.
- Robust 15kg construction signifies durability and the capacity for multiple jump starts, providing essential backup power for extended voyages.

PEAK CURRENT

5.000 A

WEIGHT

15 kg

Technical Specifications

Starting Power

Peak Current **5.000 A**

Voltage Support

24V Support **? Yes**

Physical Specifications

Weight **15 kg**

Regulatory Compliance

Standards: EN 62133, UN 38.3, IEC 62281
Regulatory: CE | Bebat | ADR

Product Identification

Item Code: **LEM-L7-ST-210**
