

LEMANIA LEM-T3 12V Battery Tester

Battery Tester / Accutester | LEMANIA | LEM-T3

Lemania T3 Professional battery tester uses advanced testing technology to easily and quickly measure the cranking capacity and condition of a vehicle's battery as well as its starting and charging systems. It can also test and detect defective cells in all types of starting batteries, including lead-acid, flat AGM, coiled AGM, GEL and start/stop batteries, as well as rechargeable lithium-ion batteries.

Features

- Ensures reliable marine power systems with precise battery, starter, and alternator diagnostics, preventing critical failures at sea.
- Engineered specifically for the demanding marine environment, guaranteeing dependable performance in saltwater and vibration-intensive conditions.
- Provides accurate battery health assessments, extending the lifespan of marine energy components and ensuring operational readiness.
- Supports a comprehensive range of marine battery types and electrical systems, offering versatile diagnostic capabilities for diverse vessels.

WEIGHT

2 kg

Technical Specifications

Test Capabilities		Battery Type Support	
Battery Testing	? Yes	Flooded Lead-Acid	? Yes
Voltage Support		AGM	? Yes
12V Support	? Yes	GEL	? Yes
		EFB	? Yes
Physical Specifications			
Weight			2 kg

Regulatory Compliance

Standards: EN 61010-1, EN 61326-1
Regulatory: CE

Product Identification

Item Code: LEM-T3
Manufacturer Code: T3
Model: LEM-T3
