

LEMANIA 12V Hybrid Booster

Jump Starter / Booster | LEMANIA | LEMH151500

Marine engines need immediate high-load start. Hybrid battery/capacitor tech delivers high-impact power bursts for rapid cranking, reducing engine strain and boosting reliability in demanding maritime conditions.

Features

- Delivers rapid, high-current bursts of power for immediate engine starts, significantly reducing cranking time and strain on your vessel's electrical system.
- Specifically engineered for the challenging marine environment, offering reliable performance and durability in saltwater and humid conditions.
- Combines advanced battery and capacitor technology to provide a superior, high-impact starting power that exceeds conventional booster capabilities.
- Features a robust 12V system designed for maritime compatibility and a 15kg weight for practical installation and maintenance.

PEAK CURRENT

8.000 A

WEIGHT

15 kg

Technical Specifications

Starting Power

Peak Current **8.000 A**

Voltage Support

12V Support **? Yes**

Physical Specifications

Length **380 mm**

Width **320 mm**

Height **240 mm**

Weight **15 kg**

Regulatory Compliance

Standards: EN 62133, UN 38.3, IEC 62281

Regulatory: CE | Bebat | ADR

Product Identification

Item Code: **LEMH151500**
