

# LEMANIA 12V Hybrid Booster

Jump Starter / Booster | LEMANIA | LEMH15600

In marine environments where immediate engine ignition is critical, 3100A peak charging current delivers rapid starting power. This hybrid battery and capacitor booster reduces strain on the main battery by efficiently storing and delivering surge energy.

### Features

- Delivers exceptional surge power with 3100A charging current, ensuring rapid and reliable engine starts for marine applications.
- Specifically engineered for the marine environment, providing dependable starting power for professional and recreational vessels.
- Combines advanced battery and capacitor technology for efficient energy storage and rapid power delivery, reducing strain on the main battery.
- Robust 12V design weighing 15kg offers a balance of portability and substantial performance, built to withstand harsh marine conditions.

PEAK CURRENT

**3.100 A**

WEIGHT

**15 kg**

## Technical Specifications

### Starting Power

Peak Current **3.100 A**

### Voltage Support

12V Support **? Yes**

### Physical Specifications

Weight **15 kg**

## Regulatory Compliance

Standards: EN 62133, UN 38.3, IEC 62281  
Regulatory: CE | Bebat | ADR

## Product Identification

Item Code: **LEMH15600**
