

LEMANIA 12V Lead-Acid Booster

Jump Starter / Booster | LEMANIA | LEMP2ST1224V25

Demanding marine operations require immediate engine ignition from a power source engineered for saltwater conditions. This robust 12V lead-acid booster delivers high cranking current to ensure reliable starts, integrating seamlessly into onboard electrical systems.

Features

- Ensures quick and reliable engine starts in challenging marine conditions with its robust 12V lead-acid power.
- Engineered specifically for the rigorous demands of marine applications, providing dependable power for vessels.
- Utilizes proven lead-acid technology for consistent and effective starting assistance.
- Built for durability and resilience, offering peace of mind in harsh maritime environments.

PEAK CURRENT

3.100 A

WEIGHT

15 kg

Technical Specifications

Starting Power

Peak Current **3.100 A**

Physical Specifications

Weight **15 kg**

Voltage Support

12V Support **? Yes**

24V Support **? Yes**

Regulatory Compliance

Standards: EN 62133, UN 38.3, IEC 62281

Regulatory: CE | Bebat | ADR
