

POWERBOOZT 24V 100A Main Switch

Switch / Schakelaar | POWERBOOZT | MBS1

Demanding 24V mobile applications require secure primary power isolation up to 100A to prevent accidental surges during maintenance or storage. This main switch provides robust circuit isolation, safeguarding sensitive electronics and preventing damage from electrical faults within mobile systems.

Features

- Ensures secure and complete disconnection of 24V systems up to 100A, preventing accidental power surges during maintenance or storage.
- Engineered for reliable primary power management in demanding mobile environments like caravans, boats, and RVs.
- Provides robust circuit isolation for 24V systems, safeguarding sensitive electronics and preventing damage from electrical faults.
- Designed for straightforward installation and reliable operation in automotive, marine, and recreational vehicle applications.

Technical Specifications

Regulatory Compliance

Standards: IEC 60947
Regulatory: CE

Product Identification

Item Code: **MBS1**
EAN/Barcode: **8720618147370**
Manufacturer Code: **MBS1**
Model: **MBS1**
