

# LEMANIA 12V Trickle Charger

Battery Charger / Acculader | LEMANIA | PART-LEM2530

Self-discharge is prevented by low-level continuous charging technology, which sustains battery health and ensures marine equipment is always ready. This charger's design for rigorous marine applications provides reliable power on the water and safeguards battery longevity.

## Features

- Maintains battery health to prevent self-discharge, ensuring your marine equipment is always ready for use.
- Specifically designed for the rigorous demands of marine applications, providing reliable power on the water.
- Low-level continuous charging technology prevents overcharging, safeguarding battery longevity.
- Robust construction engineered for marine environments, offering protection against moisture and corrosion.

NOMINAL OUTPUT VOLTAGE

**12 V**

MAX OUTPUT CURRENT

**2 A**

WEIGHT

**1 kg**

## Technical Specifications

### Output

Nominal Output Voltage	<b>12 V</b>
Max Output Current	<b>2 A</b>

### Physical Specifications

Weight	<b>1 kg</b>
--------	-------------

### Connectivity & Protection

Reverse Polarity Protection	<b>? Yes</b>
Short Circuit Protection	<b>? Yes</b>

## Regulatory Compliance

Standards: EN 60335-2-29, EN 55014, EN 61000-3-2  
Regulatory: CE

## Product Identification

Item Code: **PART-LEM2530**  
Model: **PART-LEM2530**
