

## POWERBOOZT 24V 160A Charging Relay

Switch / Schakelaar | POWERBOOZT | PB-MBR12-24-160

In automotive electrical systems requiring rapid battery replenishment, a 160A charging current ensures efficient power delivery, minimising vehicle downtime. This charging relay intelligently manages power flow across 12-24V systems, safeguarding batteries and components from voltage anomalies.

### Features

- With a 160A charging current, this relay ensures rapid and efficient battery replenishment, minimizing vehicle downtime.
- Engineered for automotive applications, it seamlessly integrates into 24V electrical systems for dependable power management.
- The charging relay intelligently manages power flow between 12-24V, safeguarding batteries and electrical components from voltage anomalies.
- Designed for continuous operation in commercial vehicles, it offers robust protection against electrical interference and voltage spikes.

VOLTAGE RATING

**24 V**

SWITCH TYPE

**MANUAL\_DISCONNECT**

### Technical Specifications
