

POWERBOOZT 24V 500A Charging Relay

Switch / Schakelaar | POWERBOOZT | PB-MBR12-24-500

Withstands high-pressure water jets and dust ingress, preventing operational failures in demanding automotive environments. Its 500A continuous charging current capacity ensures rapid, efficient battery replenishment for high-demand vehicle systems.

Features

- Handles up to 500A charging current, ensuring rapid and efficient battery replenishment for high-demand vehicles.
- Specifically designed for the rigorous requirements of automotive applications, providing dependable power management.
- Facilitates seamless integration and operation within 12V to 24V battery systems, offering versatile compatibility.
- Built for the automotive environment, ensuring reliable performance and durability.

VOLTAGE RATING
