

POWERBOOZT 200A Batteryguard 6-35Vdc

Accessory | POWERBOOZT | PB-MBW200

Delivers up to 200A charging current, ensuring rapid and efficient battery replenishment to minimize downtime. Engineered for Automotive, Heavy Duty, and Marine applications, it provides robust performance and specialized compatibility with 'PB' type batteries in challenging operational environments.

Features

- Delivers up to 200A charging current, ensuring rapid and efficient battery replenishment to minimize downtime.
- Engineered for Automotive, Heavy Duty, and Marine applications, providing robust performance in challenging operational environments.
- Supports 'PB' type batteries, offering specialized compatibility for common battery chemistries used in professional settings.
- Operates across a wide 6-35Vdc input voltage range, ensuring versatility and reliable function with various power sources.
