

POWERBOOZT 40A Batteryguard 6-35Vdc

Accessory | POWERBOOZT | PB-MBW40

A powerful 40A charging current sustains rapid battery readiness for demanding automotive, heavy-duty, marine, and camper applications. Its broad 6-35Vdc input range ensures exceptional compatibility with diverse power sources and system configurations.

Features

- Delivers a powerful 40A charging current to efficiently maintain and charge supported PB batteries, ensuring rapid readiness for demanding applications.
- Engineered for diverse applications including Automotive, Heavy Duty, Marine, and Camper vehicles, providing reliable power management across varied operational environments.
- Operates across a broad 6-35Vdc input voltage range, offering exceptional compatibility with a wide array of power sources and system configurations.
- Features robust protection for PB battery types, safeguarding against overcharging and ensuring extended operational lifespan and system reliability.
