

POWERBOOZT 60A Batteryguard 6-35Vdc

Accessory | POWERBOOZT | PB-MBW60

Active charge cycle management prevents overcharging and deep discharge across a wide 6-35Vdc range, maintaining battery health for consistent operational readiness. This 60A charger integrates advanced Batteryguard technology, extending battery lifespan in demanding automotive, heavy duty, and marine applications.

Features

- Maintains battery health across a 6-35Vdc range with a robust 60A charging current, ensuring extended battery lifespan and readiness.
- Engineered for demanding Automotive, Heavy Duty, Marine, and Camper applications where reliable power is paramount.
- Utilizes advanced Batteryguard technology to actively manage charge cycles, preventing damage from overcharging and deep discharge.
- Designed for seamless integration with PB battery types, offering broad compatibility and protection for your power investment.
