

## Negative Battery Terminal Clamp 16-35mm<sup>2</sup>

Connector | MATERIAL | PB.22620

In automotive, marine, and caravan environments where stable power delivery is critical, this clamp ensures a secure 16-35mm<sup>2</sup> negative terminal connection. It guarantees dependable performance for essential vehicle electrical circuits, preventing power interruptions.

### Features

- Ensures a secure and stable connection for battery cables ranging from 16-35mm<sup>2</sup>, critical for efficient power delivery to vehicle systems.
- Specifically designed for robust applications in Automotive, Marine, Caravan, and Camper environments, guaranteeing dependable performance.
- Provides a reliable negative terminal connection, essential for the safe and correct functioning of automotive and recreational vehicle electrical circuits.
- Engineered for durability, this clamp resists corrosion and vibration, ensuring long-term integrity in challenging mobile environments.

## Technical Specifications

### Regulatory Compliance

Regulatory: CE

### Product Identification

Item Code: **PB.22620**  
Manufacturer Code: **B22620NHD**  
Model: **PB.22620**
