

## TRACTION-MATERIAL REMA 160A Connector

Connector | TRACTION-MATERIAL | REMA160A-1.0M

Without a high-capacity, secure connection for 25mm<sup>2</sup> cables, critical traction power transfer is compromised, leading to operational downtime. This REMA 160A connector ensures stable, low-impedance power delivery, integrating seamlessly with 1.000mm of pre-attached cable for flexible deployment in industrial vehicles.

### Features

- Ensures secure, high-capacity power transfer for 25mm<sup>2</sup> cables in heavy-duty applications
- Engineered for reliable connectivity in material handling and industrial vehicle systems
- Integrated 1.000mm cable simplifies installation and extends reach for flexible deployment
- Durable construction designed to withstand continuous operation in demanding environments

## Technical Specifications

### Regulatory Compliance

Regulatory: CE

### Product Identification

Item Code:

**REMA160A-1.0M**
