

TROJAN 6V 240Ah Deep Cycle Battery

Battery / Accu | TROJAN | T125

Golf car fleets require extended operational runtimes between charges, which this battery delivers with 240Ah of deep-cycle capacity. Its proven lead-acid technology ensures dependable performance for sustained operation on the course.

Features

- Delivers 240Ah of deep-cycle capacity, ensuring extended operational runtimes for vehicles and equipment between charges.
- Specifically engineered for golf car fleets, providing reliable power for sustained performance on the course.
- Utilizes proven lead-acid technology for dependable deep-cycle performance and robust energy delivery.
- Built with durable construction for demanding applications, offering resilience against frequent discharge and recharge cycles.
