

# TROJAN 124Ah Deep Cycle Battery

Battery / Accu | TROJAN | T1275-AES

Sustained 124Ah capacity ensures extended operational uptime, reducing recharging frequency for maximum productivity. Engineered for demanding deep-cycle applications, it provides reliable power in solar storage, RV, and marine systems.

### Features

- Sustained 124Ah capacity ensures extended operational uptime, reducing the frequency of recharging and maximizing productivity.
- Engineered for demanding deep-cycle applications, including solar storage, RVs, and marine environments, providing reliable power where it's needed most.
- Advanced AGM technology delivers superior vibration resistance and maintenance-free operation for enhanced durability and reduced servicing.
- Robust construction and M8 terminal ensure secure, reliable connections for continuous power delivery and system integrity.

NOMINAL VOLTAGE	RATED CAPACITY (C20)	WEIGHT
<b>12 V</b>	<b>124 Ah</b>	<b>39 kg</b>

## Technical Specifications

General Information		Electrical Specifications	
Technology	Deep Cycle Battery	Nominal Voltage	12 V
Chemistry	Lead-Acid	Rated Capacity (C20)	124 Ah
Physical Specifications			
Length	329 mm		
Width	179 mm		
Height	278 mm		
Weight	39 kg		

### Regulatory Compliance

**CE** Standards: EN 50342, EN 61427, EN 62133, IEC 62619, UN 38.3  
 Regulatory: CE | Bebat | ADR

### Product Identification

Item Code: **T1275-AES**
