

# TBB-POWER 12V Pure Sine Inverter

Inverter / Omvormer | TBB-POWER | TBB-IH1500L-BYP

Pure sine wave output safeguards sensitive electronics from waveform distortion, ensuring stable power for delicate devices. This 12V inverter is engineered for automotive, camper, marine, and heavy-duty applications, providing reliable mobile power.

### Features

- Delivers 1550W of pure sine wave AC power, ensuring sensitive electronics operate without damage or interference.
- Engineered for automotive, camper, marine, and heavy-duty applications, providing reliable power in mobile environments.
- Features a pure sine wave output, safeguarding delicate electronic devices from waveform distortion common in modified sine wave inverters.
- Includes a by-pass function for seamless power integration and backup, enhancing operational continuity.

CONTINUOUS POWER

**1.550 W**

## Technical Specifications

Input		Output	
Nominal Input Voltage	12 V DC	Waveform	PURE_SINE
Power			
Continuous Power	1.550 W		

### Regulatory Compliance

Standards: EN 62109-1, EN 62109-2, EN 55011  
Regulatory: CE

### Product Identification

Item Code: **TBB-IH1500L-BYP**  
Manufacturer Code: **TBB-IH1500L-BYP**  
Model: **TBB-IH1500L-BYP**
