

TRIMAXX 2048Wh Portable Power Station

Jump Starter / Booster | TRIMAXX | TMX.PPS.2.0

In mobile and off-grid applications requiring sustained power for critical equipment, the 2500W output capacity handles multiple high-draw appliances simultaneously. This 2048Wh portable power station ensures operational continuity for essential devices during extended use.

Features

- Power your essential devices for extended periods with a 2048Wh capacity, ensuring uninterrupted operation for critical tasks and leisure.
- Engineered for demanding mobile and outdoor applications, providing dependable energy for professional equipment and recreational gear.
- Delivers a powerful 2500W output, capable of running multiple devices simultaneously, including high-draw appliances and tools.
- Features comprehensive protection systems to safeguard your connected devices and the power station itself from electrical faults.

PEAK CURRENT

5.000 A

Technical Specifications

Starting Power	Voltage Support
Peak Current 5.000 A	12V Support ? Yes

Regulatory Compliance

Standards: EN 62133, UN 38.3, IEC 62281
Regulatory: CE | Bebat | ADR
