

TRIMAXX Portable Power Station 2400W

Jump Starter / Booster | TRIMAXX | TMX.PPS.2.4

Pure Sine Wave integrity prevents damage to sensitive electronics from voltage fluctuations, ensuring operational continuity for critical tools. This 2232Wh station provides 2400W of clean, stable AC power for mobile professionals and remote work environments.

Features

- Delivers uninterrupted power for critical tools and electronics, ensuring project continuity and operational efficiency.
- Engineered for mobile professionals requiring dependable off-grid power for events, construction, and remote work environments.
- Provides clean and stable AC power, safeguarding sensitive electronic equipment from damage due to voltage fluctuations.
- Designed for user safety and portability, allowing for easy deployment and operation in diverse professional settings.

PEAK CURRENT

4.800 A

Technical Specifications

Starting Power	Voltage Support
Peak Current 4.800 A	12V Support ? Yes

Regulatory Compliance

Standards: EN 62133, UN 38.3, IEC 62281
Regulatory: CE | Bebat | ADR
