

# TRIMAXX 3072Wh Portable Power Station

Jump Starter / Booster | TRIMAXX | TMX.PPS.3.0

Sustained 3600W output powers a broad range of professional equipment, ensuring critical operations continue without interruption. Engineered for demanding field operations, construction sites, and emergency response, this unit provides reliable off-grid power.

### Features

- Sustained 3600W output powers a broad range of professional equipment, ensuring critical operations continue without interruption.
- Engineered for demanding field operations, construction sites, and emergency response, providing reliable off-grid power.
- Advanced power management ensures efficient energy delivery and protects sensitive electronics, maximizing operational uptime.
- Robust construction designed for professional use in challenging environments, offering dependable performance.

PEAK CURRENT

**7.200 A**

## Technical Specifications

Starting Power	Voltage Support
Peak Current <b>7.200 A</b>	12V Support <b>? Yes</b>

### Regulatory Compliance

Standards: EN 62133, UN 38.3, IEC 62281  
Regulatory: CE | Bebat | ADR

### Product Identification

Item Code: **TMX.PPS.3.0**  
Model: **TMX.PPS.3.0**
