

# STUDER 12V Inverter-Charger

Inverter / Omvormer | STUDER | XTM2000-12

2kVA continuous power delivery from 12VDC ensures essential AC appliances remain operational for critical mobile applications. This unit integrates a high-performance inverter and efficient battery charger into a single, resilient package.

### Features

- Delivers up to 2kVA of continuous power from your 12V battery bank, ensuring essential AC appliances are always available.
- Engineered for demanding mobile environments including automotive, caravan, camper, and marine applications.
- Combines high-performance inverter and efficient battery charger functions in a single, reliable unit.
- Robust 18.5kg construction ensures durability and sustained performance in challenging conditions.
